DETAILED ACTION

Claims

1. Pursuant to entry of the amendment in the response dated Claims 99-139 and 141-194 are pending.

Withdrawal of Allowance

2. The allowance of claims 184-185 is withdrawn in order to apply the new objection set forth below.

Allowable Subject Matter

3. Claims 99-139, 141-183 and 186-194 are allowed.
4. The prior art of record fails to teach or suggest the compounds/polymers having pendent cyclic olefin groups therein. It also fails to teach or suggest copolymers in which the cyclic olefin groups are grafted onto the backbone using the reagents, reactions and catalysts claimed or the oxygen scavenging compositions, articles, films, or layers claimed.

New Objection

Double Patenting

5. An objection/rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting objection/rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Art Unit: 1772

6. Claim 184 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim 99. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k). Since a polymer (claim 184) is a compound (claim 99), these claims are duplicates.

7. Claim 185 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim 106. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k). Claims 106 and 185 cover the same compound.
